

Systems Software Specialist II (Technical)

The Lottery is a self-funded, fast paced, sales driven organization that relies heavily on information technology allowing every employee the opportunity to make a difference. We are looking for a talented and motivated individual eager to channel their knowledge, experience, and commitment into a career that is both challenging and satisfying. The Lottery is committed to staff development and will provide technical training and skills development assignments to help the individual grow and excel. By joining the California Lottery team, you will be rewarded with the knowledge that the work you do every day helps support California's public education. Not to mention benefiting from the additional amenities we offer including FREE PARKING, an on-site Subway® restaurant, an exercise room, lockers and showers, right off the American River Parkway and our convenient location just outside of downtown.

Salary

\$5,814 - \$7,642

Final Filing Date

September 19, 2016

Duties

This is a unique opportunity to be employed in the Gaming Industry while working towards a State retirement!

We Are Looking For You!

The California State Lottery is looking for talented Systems Software Specialist with a can-do attitude and passion for figuring things out, getting things done, and making things happen. The Lottery is a unique enterprise in the State with a diverse environment that is fast-paced, exciting and looking towards the future!! Come join us and be part of a rewarding organization with a singular focus of generating funding for education through the sale of Lottery Products!!!

What you will do...

Under the general direction of the DPM II, the SSS II acts as a technical testing lead for the Digital and Interactive Services Unit and provides technical expertise and leadership across the divisions. The SSS II is responsible for participation in and oversight of systems testing management design, implementation, and technical advisor on methods and procedures of more complex systems software and infrastructure maintenance required to support the system testing architecture, development, testing, training and operation of CSL applications.

Desirable Characteristics...

- Ability to think critically and create sound written technical recommendations
- Ability to work independently as a high-level technical specialist and conduct business activities in a professional manner that leads to superior customer satisfaction
- Ability to serve as a technical lead and expert for complex systems analysis and testing
- Ability to create high performing teams that use sustainable, repeatable processes that yield results
- Ability to effectively prioritize and adhere to deadlines
- Ability to work appropriately with confidential material

Equal Opportunity Employer: The State of California is an equal opportunity employer to all regardless of age, ancestry, color, disability (mental & physical), exercising the right to family care and medical leave, gender, gender expression, gender identity, genetic information, marital status, medical condition, military or veteran status, national origin, political affiliation, race, religious creed, sex (includes pregnancy, childbirth, breastfeeding and related medical conditions), and sexual orientation.

Background Investigation: The California State Lottery Act provides that no person may be hired as an employee of the Commission if that person has been convicted of a felony or any gambling related offense. A background check will be required.
